

Table of Contents

- I. Chromosomes and DNA
 - DNA
 - Chromosomes
 - Genes
- II. Basic Genetic Concepts
 - Patterns of Inheritance
 - Genotype-Phenotype
- III. Human Genetics
 - The Family Health History (a.k.a. the pedigree)
 - Genetic Conditions
- IV. Birth Defects Prevention
 - Folic Acid and Neural Tube Defects
- V. Newborn Screening
 - From a Tiny Drop of Blood
- VI. DNA Technology
 - Cloning
 - DNA Fingerprinting
 - Human Genome Project
- VII. Ethical Dilemmas in Genetics
 - Scenarios for Discussion
